

## Stramit® Corrugated

Stramit® Corrugated sheeting is a traditional profile available in a range of colours. With wide cover for quick installation and easy handling, plus a minimum 5° pitch, Stramit® Corrugated sheeting suits traditional and contemporary roof designs.

## Stramit Monoclad®

Stramit Monoclad® cladding combines economy and practicality with modern design to produce a lightweight, attractive roof and wall profile. The deep ribs provide excellent spanning and high water carrying capacity. The minimum roof pitch of 2° allows for a diverse range of design options.

## Stramit® Longspan

Stramit Longspan® cladding is a good looking, long spanning, high-strength conventional pierce-fixed roof and wall sheet, fixed every second or third rib for fastener efficiency. Minimum roof pitch of 1.5° saves on supporting structure and provides design flexibility.

## Stramit Sunset® Patio Roof Panels

Designed specially for the home improvement market to make it easy to create stylish verandas, patios, barbecue areas and carports. The unique design gives the underside of the roof a continuous surface to keep out dust, while the interlocking panels provide strength and a weather-tight seal. This integrated patio roof system can be supplied with beams and accessories such as gutters, flashing and downpipes, as well as translucent panels in opal shade for natural lighting.
